About Qaz Made

Qaz Made is a mark of trust and quality for Kazakh brands, representing the country's best products and services to the world.

This classification reflects not only the wide range of products and services but also the philosophy of modern Kazakhstan — from natural purity and nomadic heritage to technological progress and the creative economy.

It brings together reliable companies from diverse industries and helps them connect with partners, buyers, and investors worldwide.

Qaz Made features a unique system of categorization that unites Kazakh brands under six key segments: **Organic, Nomadic, Essentials, Industrial, Innovative, Creative.**

Qaz Made Clusters

Organic

Natural products and eco-friendly solutions created with care for people and the environment.

Nomadic

Goods inspired by Kazakh nomadic culture, combining tradition, craftsmanship, and contemporary design.

Essentials

Everyday products and services that bring comfort, quality, reliability, and wellbeing.

Industrial

A wide range of products made on an industrial scale, from clothing and household goods to materials and components used in manufacturing and construction.

Creative

Products and services rooted in Kazakh culture and imagination, blending art, design, and innovation to create new forms of expression that connect people and share the modern Kazakh spirit globally.

Innovative

Smart products and solutions that apply new technologies to improve daily life, boost efficiency, and drive positive change.

💧 Essentials

WHO WE ARE

WEC started in Karaganda as a small auto-chemistry producer and has grown into a modern manufacturer of eco-friendly household chemicals. Since 2016 WEC has been the first company in Kazakhstan to use biodegradable and plant-based components.

WHAT WE OFFER

Household chemicals:
laundry detergents,
dishwashing and
cleaning products,
liquid soaps, etc.

Products under the
WEC brand, focused
on safety and
sustainability.

UNIQUE FEATURES

Eco-friendly formulas
with biodegradable
components

Strict quality control
and safety for people

Clear positioning:
"Safe Household
Chemistry"

Flexible approach
to export deliveries
and partnerships.

WHO WE ARE

Muranu is a Kazakhstan company founded in 2023. Under the Plus Effect brand, we produce modern household chemicals that combine efficiency, safety, and affordability.

WHAT WE OFFER

Dishwashing gel — removes grease even in cold water, with natural additives

Universal laundry gel — for hand and machine wash, removes stains, leaves freshness

Liquid soap — gentle cleansing with moisturizing effect

Dishwashing liquid — deep cleaning, rinses easily without streaks

UNIQUE FEATURES

Modern formulas with natural ingredients

Competitive price-to-quality ratio

Young and flexible brand with strong growth potential

Localized production in Kazakhstan

WHO WE ARE

Astana SafetyTech is an innovative Kazakh company specializing in the development of autonomous fire suppression systems. Its flagship product is "OTQOR", based on microcapsule vacuum coating technology, implemented under national R&D grants.

WHAT WE OFFER

Autonomous fire suppression devices "OTQOR" with microcapsule technology

Low-maintenance, highly efficient safety solutions

Design and production of next-generation fire safety systems

UNIQUE FEATURES

Microcapsule vacuum technology — high reliability and rapid response

Early-stage fire suppression — effective containment before escalation

No costly maintenance — one-time installation with long-term protection

WHO WE ARE

MehLitKom is one of Kazakhstan's oldest industrial enterprises, established in 1921. With over a century of expertise, the company serves mining, cement, metallurgy, chemical, and transport industries with high-quality foundry and machining solutions.

WHAT WE OFFER

Casting of steel, cast iron, and non-ferrous alloys (1 kg – 2.5 tons)

Repair and manufacturing of assemblies, spare parts, and metal structures

Electrical repair of motors, transformers, and generators

Joint production of drilling bits (with Uralburmash, Russia)

UNIQUE FEATURES

100+ years of proven expertise

Advanced casting technologies (PGF, LGM)

Full-cycle production from casting to repair and assembly

Trusted by Kazakhmys, Kazchrome, KazZinc, EEC and others

WHO WE ARE

Intago Kazakhstan is implementing an investment project to build a nonwoven geosynthetics plant in the SEZ "NINT", Atyrau region. The company manufactures high-quality geotextiles under its own trademark Intatex, meeting international standards. Leading producer of nonwoven and extrusion geosynthetic materials in Central Asia. Intago Kazakhstan LLP is constructing a modern geosynthetics plant in the SEZ "NINT", Atyrau region.

WHAT WE OFFER

Geotextile "INTATEX" — durable nonwoven fabric made of 100% polymer fibers, compliant with international standards.

Geogrids "INTAFLEX" — uniaxial, biaxial, and triaxial geogrids for soil reinforcement and infrastructure stabilization.

UNIQUE FEATURES

Own production using high-tech equipment

Trusted by 1000+ clients, including major construction companies

Certified: ST-KZ, Industrial Certificate, Certificate of Conformity

Focus on innovation, reliability, and durability for critical projects

WHO WE ARE

Kazcenospheres LLP is a specialized manufacturer of aluminosilicate hollow microspheres (cenospheres) from fly ash. A joint venture with Kusto Group and Granula LLC, the CIS leader in ash and slag waste processing. The plant was launched in May 2021 in SEZ Pavlodar with an annual capacity of 12,000 tons, employing over 70 specialists.

WHAT WE OFFER

Aluminosilicate microspheres — lightweight hollow particles rich in silica and alumina

Key properties: low density, high thermal resistance, chemical inertness, resistance to aggressive environments

UNIQUE FEATURES

Exclusive agreement with ERG for fly ash collection at Aksu GRES

High-quality raw materials and precise fractionation

Certified laboratory with strict quality control

Flexible logistics and packaging options for clients

WHO WE ARE

SpecTradeTM is a Kazakh company specializing in the production of paints, coatings, and road marking materials. A market leader in road safety, we actively cooperate with state authorities and are listed among domestic manufacturers. The production base is located in Astana, and the group also includes LLP "Tengiz+".

WHAT WE OFFER

Cold plastic — two-component, highly durable road marking material

AK-511 enamel — fast-drying road paint resistant to abrasion and weather

Additional products: road signs, glass beads, road marking equipment

Packaging: tin cans, pallets; ADR hazard class 3, with full documentation

UNIQUE FEATURES

Certified: ST-KZ, Industrial Certificate, Export License

Listed in the register of domestic manufacturers

Advanced technology meeting road industry standards

Production capacity > 1million tons annually

WHO WE ARE

PVD.KZ is one of the largest polyethylene packaging manufacturers in Kazakhstan. Established in 1998, the company is located in the Almaty region (Mukhametzhan Tuimebaev village, Pervomaysk industrial zone). The plant's production capacity is up to 3,000 tons per year.

WHAT WE OFFER

Polyethylene film of various thicknesses

Shrink film (including for pallets, beverages, bottled water)

Mulch film for agriculture

Branded and unbranded bags ("t-shirt", with handles)

UNIQUE FEATURES

Operating since 1998 — proven expertise and technology

Certified: ISO, ST KZ, Industrial certificate

Included in the national register of domestic manufacturers

Use of both primary and recycled raw materials
